

ATTEND THE BEDFORD COUNTY FAIR NEXT WEEK

COUNTY FAIR NOTES

39th Annual Exhibition Will Be Best in History of

AGRICULTURAL SOCIETY

All Arrangements Made—Big Display of Farm Products—Interesting Races.

All arrangements have been completed for the biggest and best Fair ever held in the county. The Association has assured us that the Board of Directors has left nothing undone to make the Fair of 1912 the best ever held in the county.

The exhibits in all departments promise to be the best ever seen at a Fair in the county. The race program is of special interest this year as the number of entries for each advertised is much larger than heretofore. Horses from Somerset, Blair and Cambria Counties and from Cumberland, Md., have already been entered. The county race will have more horses in it this year than ever.

The Educational Fair Exhibit from State College is already on the grounds and will be of special interest to the farmers. This feature alone is worth the price of admission.

The baseball program is completed and good fast teams have been secured for the games, one each day, beginning with Tuesday, when the Bedford team will play Wolfburg. These teams are as good as can be found in the county and a good game may be expected. Wednesday, Bedford vs. Coal Dale; Thursday, Bedford vs. East Freedom, and on Friday, the last day of the Fair, these same teams will play. The East Freedom team is one of the best teams in Blair County and good fast games may be expected. The Coal Dale team claim the Bedford County championship. If you care for good, clean baseball, you will see it here next week. Don't miss one of the games.

The Association announces that the price of admission to the grand stand has been reduced for Tuesday, Wednesday and Friday to 15c. On Thursday the price will be 25c.

Entries are already being sent in for the Poultry Show. The large tent will be erected this week and the new coops placed. This is one of the big features of the Fair and some fine poultry will be exhibited. An expert judge will make the awards and a square deal will be given each exhibitor.

The Secretary requests that entries be sent him as soon as possible, in all classes.

The Free Amusements will be the best that money can buy. Don't fail to see the trained donkeys. The big sensation of the year is Minnie Fisher in her daring slide for life—each day.

Four brass bands will furnish music and give concerts each day on the grounds and each evening on the public square in town.

Wednesday is "Children's Day." Don't forget the children. All under 12 years of age admitted free, if accompanied by their parents or guardians.

Excursion rates on all railroads and on Thursday a special train from Altoona will leave there at 7:20 a. m. and arrive at Bedford at 9 o'clock, returning leaves at 6 o'clock p. m.

The people of the county should patronize the Fair and help swell the exhibits. Look around and see if you do not have something that you can bring to help the exhibit along. From all indications the Fair this year will be the largest, so far as exhibits are concerned, ever held in the county.

Take advantage of this opportunity of being instructed and entertained. Meet your friends at the Fair. They will all be there and you don't want to miss any of the four big days.

WILL HELP WILSON

Prominent Republican Progressives Effect Organization

TO FIGHT FOR HIS ELECTION

Will Co-operate With National Progressive League Approved by the Candidate.

Convinced that the only hope of progressive reform in America under present political conditions is in the election of Governor Woodrow Wilson, the Democratic candidate for the Presidency, a group of Republican Progressives, a group of business men who have been conspicuous in every progressive and reform fight in Pennsylvania in the last decade, last Friday night formed a league to promote Wilson's election.

At a dinner in the Bellevue-Stratford, Philadelphia, given by Powell Evans, of the Merchant & Evans Company in honor of Rudolph Speckles of California, temporary organization was effected, with Mr. Evans as temporary chairman and Albert E. Turner as secretary. Theodore J. Lewis, who could not be present, but who is heartily in favor of its purposes, was requested to act as treasurer. Headquarters will be opened in a few days, and an active campaign started, which is expected to swing thousands of Progressive Republican votes to the Democratic candidate.

Organizers of the Movement

Among those present at the opening conference, which followed correspondence with Mr. Speckles, were Louis J. Kolb, head of the well-known baking firm; Henry C. Niles of York, the independent leader and organizer in every reform movement in Pennsylvania; James A. Develin, treasurer of the Blankensburg Campaign Committee in last year's primary election fight; Samuel S. Fels, manufacturer; Walter Wood, manufacturer; William H. Hollar, Thomas R. Fort, Jr., Max Levy, Samuel Young and Albert E. Turner, besides Powell Evans, who was active in the formation of the Republican Nomination League in 1911, whose purpose was to wrest control of the Republican party from the bosses. George Burnham, Jr., president of the Keystone Coal and Iron Company, the well-known political reformer, sent his regrets, but expressed his favor of the plan.

The league will work in co-operation with the National Wilson Progressive Republican League, which has recently been organized, under the guidance of Charles R. Crane and Mr. Speckles, former ardent supporters of Senator Robert M. LaFollette, to advance the interests of Wilson in every state. Mr. Speckles, who exchanged congratulations Friday by wire with Governor Wilson, on the occasion of the opening of Eastern headquarters of the league in New York, and received the hearty thanks and best wishes of the candidate, was extremely optimistic of the outcome of the campaign.

Widespread Republican Support

"We are making surprising headway in every part of the country," he said. "We have received literally thousands of letters from Republicans in every state pledging their aid and their influence in the cause and telling of most hopeful reports of Republican support of Wilson in their localities. We have a fine working organization in California, where practically the whole LaFollette strength, approaching 50,000 votes, will go solidly for Wilson in November. New York reports are extremely gratifying, while Massachusetts has shown a substantial basis for hope that real progressives there will join with us to elect Wilson. Illinois, Wisconsin, Ohio, all are getting into line, and in each of those states have been cordially received and helped by substantial Republicans who believe in the progressive cause and who see in Wilson's election the surest basis for carrying out the progressive policies in which we believe.

"We are for Wilson not only because we believe in him and see in his record an augury of greater achievements, but also because it is the only course open to men who wish to see the Republican party saved for future usefulness in the progressive movement. We cannot support the Republican nominees, for they are not progressive; we cannot leave the Republican party and

Fined for Cruelty to Animals

Ralph Blattenberger of Windber, who was charged with cruelty to animals, was given a hearing before Justice J. Reed Irvine Saturday morning, and was fined \$10, and pay costs of prosecution, \$22.64 in all. It seems that during the Osterburg picnic Blattenberger drove a horse from Windber to the picnic grounds and in some manner the animal was terribly beaten with a whip, Blattenberger claiming that some one took the horse from the picnic grounds and committed the dastardly deed, but he could furnish no evidence to substantiate his story. The information was made by County Humane Agent Elmer E. Corie.

TARIFF COMPARISON

Table Showing the Advance in the
Cost of Living During First Ten
Years of the Dingley Law.

Washington, September 23.—If our protective system is not the "substantial" explanation of the abnormal increase in the cost of living in the United States, how does it come that British prices, under free trade, increased but 7.7 per cent. in 10 years, while American prices, under protection, increased 34.3 per cent.?

Here is a table which tells its own story and ought to be considered "Exhibit A" in any congressional or other investigation into the increased cost of living:

Year.	English Prices.	United States Prices.
1896	100.0	100.0
1897	104.4	104.6
1898	109.6	112.6
1899	105.1	117.2
1900	107.2	124.2
1901	107.6	126.3
1902	109.0	132.8
1903	108.0	127.8
1904	108.7	127.9
1906	107.7	134.3

Increase . . . 7.7 . . . 34.3

These figures are calculated from official statistics of the British Board of Trade in the Eleventh Abstract of Labor Statistics and from figures in the Seventy-first Bulletin of the United States Bureau of Labor.

The year 1896, which was the year preceding the enforcement of the highly protective Dingley tariff, is taken as the standard year, the cost of food in each country being taken as 100. The meaning of the table is that food which cost \$1 in Great Britain in 1896 could not be duplicated for less than \$1.077 in 1906, and that food for which the American consumer paid \$1 in 1896 cost \$1.343 in 1906.

A Striking Comparison

Coming nearer home, the difference in the cost of living in Detroit and just across the river in Windsor, Canada, supplies us with a striking definition of the real meaning of excessive tariff rates. Prices of foodstuffs, wearing apparel, and rents average from 20 to 25 per cent. more in Detroit than in Windsor. And between the two cities there are but 2.561 feet of water—and the Aldrich-Payne tariff bill!

The Detroit man is "protected" and the Windsor man is not.

By not being "protected" the Windsor man pays \$15 for a suit of clothes that the Detroit man will find it difficult to duplicate in quality for \$25. What the Windsor man is escaping in this instance is the Aldrich-Payne tax of 44 cents a pound on good all-wool clothes, and the additional tax of 60 per cent. on the value of the goods.

Wool Tariff Robs Women

When a woman purchases \$10 worth of woolen dress goods, \$4.87 of that \$10 represents the actual value of the goods and the remaining \$5.13 of the \$10 the amount of the tariff. In other words, should the same purchase be made in England, where there is no tariff on woollens, the woman would receive the same amount and quality of dress goods for \$4.87 that she pays \$10 for in this country.

This is because of the Payne-Aldrich ad valorem tariff of 105 per cent. on this class of goods.

Germans Admit Tariff Increases Prices

When the German Government introduced its tariff law of 1902, it published with it, as is the custom in Germany, a printed explanation of the reasons for its introduction. This official document, which squarely declares that import duties raise the cost of living, reads, in part, as follows:

"Inland prices are raised, so far as a consideration of the circumstances of the last 10 years will allow us to judge, in proportion to the duties."

In precisely this way the tariff increases the cost of the necessities of life in the United States.

Tariff Tax Always Added to Cost of Articles

In France, Italy, and some other European countries a part of the municipal revenue is raised by duties on goods entering the towns. At the gates of such towns there is an official who collects this tax, and it is found that the difference in prices of articles purchased outside of the towns and within the towns is in nearly every instance exactly the amount of the duty. The same happens in trade between nations.

Some Testimony From Abroad

In Holland there are no import duties on food or raw materials, the sole protective element being a tax of 5 per cent on imported manufactured goods. In Germany there is a high duty on food and an excessive tariff on all the necessities of life. A household of six persons can buy for \$2.04 in Gelderland (one of the eastern provinces of Holland) the necessities of life which in Germany, just across the frontier, would cost \$6.78. As a result a village of 4,000 inhabitants has grown up at Glanerbrug, near the German frontier. There German manufacturers have built houses for a colony of their workmen, because they can live more cheaply and better across the frontier in the foreign country, where there are practically no import duties.

RELIEVES CATARRH IN ONE HOUR

The quickest and easiest way to open up your mucus clogged head and free the throat from Catarrhal secretions is to breathe Booth's HY-OMEL.

Don't waste time with impossible methods; HYOMEL has ended the misery of Catarrh for thousands of despairing sufferers; it will do the same for you if you will give it a fair trial.

Just breathe it; it kills Catarrh germs and banishes Catarrh. A HY-OMEL outfit, which includes inhaler, costs \$1.00. Separate bottles, if afterward needed, 50c, at pharmacists everywhere. Money back from F. W. Jordan if dissatisfied.

FARMER GETS LESS. BUT—

He Has to Pay More For What He Doesn't Raise.

The United States department of agriculture has just announced that notwithstanding the increased cost of living among the people as a whole there was a greater decline in the prices paid to farmers from Aug 1 to Sept. 1 this year than there was last year.

The average farm prices of the important crops (corn, wheat, oats, barley, rye, flaxseed, potatoes, tobacco, cotton and hay, which represent about three-fourths of the value of all the country's crops) declined 7 per cent during the month, while in that time last year they declined in price only 4.4 per cent, and during the last four years the decline in price averaged 3.8 per cent. The average of farm prices on Sept. 1 was 2.8 per cent lower than on that date last year.

Prices paid to farmers on Sept. 1 this year, with comparison of prices paid on the same date last year, follow:

	1912.	1911.
Corn	\$0.76	\$0.85
Wheat	.58	.64
Oats	.35	.40
Barley	.53	.70
Rye	.70	.78
Buckwheat	.76	.78
Flaxseed	1.56	2.08
Potatoes	1.80	1.13
Hay	12.10	14.60
Cotton	.113	.118
Butter	.242	.283
Chickens	.113	.111
Eggs	.191	.174

But the prices on tariff nurtured articles of manufacture which the farmer has to buy continue to soar.

The third term candidate's favorite reply to the telling, unanswerable arguments of Governor Wilson is that the latter's opinions are based "not on actual knowledge and experience, but by reading musty books on political economy." The colonel himself at a tender age was put at hard labor; it is not often that a man whose whole life has been given up to politics and officeholding gets as horny handed as Mr. Roosevelt in the ranks of labor and high finance.

Governor Wilson said to the newspaper men at the New York Press club banquet: "Suppose you had a house of representatives mixed like the present senate. I think we could all go fishing for the next two years." But he's at the helm, and there won't be any mixing. Democrats—that's all.

How many of those who are struggling with the "high cost of living" believe there is to be any relief if the Republican party, which brought it about, remains in power?

The card stacking at Armageddon goes merrily on. Eight Taft electors in Missouri announce that if elected they will vote for the third term candidate.

By applying the common sense test to Rooseveltian romance Governor Wilson manages to keep the country both amused and thoughtful.

Have an Ideal.

If our minds are resolutely set on an ideal good, and if we follow this with an inflexible patience and persistence, then, though we may often blunder in our choice of ways and means, somehow the grace and sweetness of our inner life will pass into our children's hearts.—J. W. Chadwick.

Mrs. J. N. Hill, Homer, Ga., has used Foley's Honey and Tar Compound for years, and says she always recommends it to her friends. "It never fails to cure our coughs and colds and prevents croup. We have five children and always give them Foley's Honey and Tar Compound for a cold, and they are all well. We would not be without it in our house." Ed. D. Heckerman

The special feature of the October Scribner's will be "The Modern Terminal." One article by W. Symmes Richardson, of McKim, Mendenhall & White, treats this problem from the architectural point of view; the other by Samuel O. Dunn, editor of the Railway Age Gazette, considers it from the practical railway man's standpoint. More than sixty views of the great stations in Europe and America are given.

WHY DR. WILEY IS FOR WILSON

He Says Taft and T. R. Are Soldiers of Fraud.

ENEMIES OF PURE FOOD LAW.

Famous Chemist Believes the Health of the Nation Demands Election of the Democratic Ticket—He Appeals to Those Who, Like Himself, Have Been Republicans.

By HARVEY W. WILEY.
(Former Chief Chemist of the U. S. Department of Agriculture.)

My appeal is chiefly to those who, like myself, have been lifelong Republicans. I believe that no kind of an administration is going to ruin the country. I have a high personal regard for each one of the candidates for president and vice president on all the tickets. All the political platforms are mainly sound, and all promise effort in behalf of the whole people. My choice is not based on a platform. It was determined by my impressions of the real attitude of the candidates respecting the public welfare. We are creatures of heredity and environment. In our attitude toward great public questions we are almost altogether creatures of environment.

What two men are by environment least likely to be swayed by special interests and most likely to be guided by devotion to public welfare? Two of the candidates have already been tried in the presidential chair, and we know by experience what may be expected if either of them resumes his former seat on March 4, 1913. Mr. Roosevelt by reason of his attitude toward the food and drug act abandoned the consumers of the country to the rapacity of a few mercenary manufacturers. Under authority of congress I had carried on extensive experiments with my so called poison squad and found that certain substances—viz, benzolic compounds, sulphurous compounds and sulphate of copper (bluestone)—were injurious to health.

The law conferred upon me as chief of the bureau of chemistry the duty of acting as a grand jury and determining whether foods and drugs were adulterated or misbranded. Instead of appealing from my decisions to the courts, as the law requires, the users of these poisons appealed to President Roosevelt. He not only listened to them, but he abrogated the plain provisions of the law, appointed a board not contemplated by the law and directed that these predatory interests might continue their attacks on the health of the people until this board, unknown to the law, should decide otherwise.

Can we safely trust the campaign for public health to Mr. Roosevelt? I cannot believe that to be the proper course. Mr. Taft inherited this exceedingly bad condition of affairs from his predecessor and has not only continued this illegal board under whose patronage adulterators are still poisoning the people, but he did worse. In the matter of the adulteration of distilled beverages in which Roosevelt upheld the legally constituted authorities Mr. Taft reversed that policy and threw the mighty weight of the executive office to the support of the worst lot of adulterators that ever disgraced a country.

Mr. Wilson and Mr. Marshall by their strenuous efforts in behalf of the food laws of their respective states have given a positive promise to end such a threatening state of affairs. They will support to the utmost the officials under the law who are trying to protect the public health and will make short shrift of those who have brought about these present unbearable conditions.

Wilson and Marshall by their education and environment are free from bias in favor of predatory interests and are inspired by true patriotic zeal in behalf of public welfare.

I support the Democratic nominees in full knowledge that many of the prominent Democrats in congress have been in full sympathy with the paralysis of the food law in behalf of the unholy dollar. But when the Democratic president and vice president lend the aid of their powerful sympathy in behalf of the public health those of their own party not in sympathy with them will be robbed of their power for evil. If Roosevelt or Taft be chosen the soldiers of fraud and adulteration will be impregnable, entrenched for another four years and benzonates, sulphates and adulterated alcoholic beverages will have a new lease of life.

I believe also that President Wilson will renovate the department of agriculture, reeking, as it has been for the past twelve years, with scandals and favoritism. He will see to it that the bureau of animal industry will protect the public health instead of the efforts of the packers to sell diseased meats under the deceptive phrase "U. S. Inspected and Passed." Under President Wilson no more Pinchets will be kicked out of the service no more unspeakable McCabes will exercise dictatorial powers. There will be no more cotton leaks and jungle atrocities, no more Everglade swindles, no more Buena Vista and buncombe will give place to sane efforts for the promotion of real agriculture and the public health.

Under Wilson the department of agriculture will be restored to spend

PILES DISAPPEAR

So Does Eczema, Salt Rheum, Ulcers, Old Sores and Carbuncles.

Under the influence of San Cura Ointment surprising cures are made so quickly that they seem like miracles.

Stabborn cases of piles like those of Rev. W. F. Gilbert of Titusville, Pa., vanish before the marvelous antiseptic Ointment. Mr. Gilbert writes: "For twenty years I suffered with bleeding and itching piles; at times I was confined to the house for more than a month. Two years ago I began using San Cura Ointment and one 50c jar made a firm and permanent cure. I have not been troubled since."

San Cura Ointment is guaranteed by Ed. D. Heckerman, who is the agent in Bedford, to cure any of the above named diseases or money back. It instantly kills all pain from burns, cuts and bruises, draws out the poison and heals in a short time. 25 cents and 50 cents a jar at Ed. D. Heckerman's.

Good Baby Soap

San Cura is a healing and antiseptic soap; just the soothing kind that baby needs. It frees the pores from all impurities and prevents fevers, rashes and other infantile diseases. Best for anyone's skin, cures pimples and blackheads, cleans the complexion. 25 cents a large cake at Ed. D. Heckerman's.

Mail orders for San Cura Ointment and Soap filled by Thompson Medical Co., Titusville, Pa.

ing terms with the state agricultural colleges and experiment stations, and the state officials will no longer be regarded as inferior beings, living only on the largesse of a Washington cabal. I ask all who want honesty and faithful service in the department of agriculture, the promotion of public health and executives who have grown to manhood and lived in an environment favorable to that which makes for the public welfare to vote for Wilson and Marshall.

TRUTH ABOUT THE TRUST.

"Expected Economies From Combination" Do Not Materialize.

(Louis D. Brandeis in Collier's.)
Leaders of the new (third term) party argue that industrial monopolies should be legalized lest we lose the efficiency of large scale production and distribution. No argument could be more misleading.

It may be safely asserted that in America there is no line of business in which all or most concerns or plants must be concentrated in order to attain the size of greatest efficiency, for, while a business may be too small to be efficient, efficiency does not grow indefinitely with increasing size. What the most efficient size is can be learned definitely only by experience. The unit or greatest efficiency is reached when the disadvantages of size counterbalance the advantages. The history of American trusts makes this clear. That history shows:

First.—No conspicuous American trust owes its existence to the desire for increased efficiency. "Expected economies from combination" figure largely in promoters' prospectuses, but they have never been a compelling motive in the formation of any trust. On the contrary, the purpose of combining has often been to curb efficiency or even to preserve inefficiency, thus frustrating the natural law of survival of the fittest.

Second.—No conspicuously profitable trust owes its profits largely to superior efficiency. Some trusts have been very efficient, as have some independent concerns, but conspicuous profits have been secured mainly through control of the market, through the power of monopoly to fix prices, through this exercise of the taxing power.

Third.—No conspicuous trust has been efficient enough to maintain long as against the independents its proportion of the business of the country without continuing to buy up from time to time its successful competitors.

WATCH YOUR HAIR, LADIES

Eternal Vigilance is the Price of Luxuriant and Radiant Hair

If dandruff germs are devouring the nourishment that belongs to the hair, it will soon begin to fall. Furthermore it will lose its life and lustre and will become dull, faded and even gray.

If you have any signs of dandruff, go right to your druggist today and get a 50 cent bottle of PARISIAN Sage. This delightful hair tonic is guaranteed by F. W. Jordan to kill dandruff germs, clean the head of filthy dandruff, stop falling hair and itching scalp, and preserve the color and beauty, or money back. And it does just what it is guaranteed to do and that's why its sales are so enormous the country over. PARISIAN Sage is the favorite of refined women. One bottle proves its superiority.

President Finley, in the October Scribner's, follows the trail of the French explorers along the Mississippi River. These articles ("The French in the Heart of America"), contain not only vivid historical narrative, but a great deal of present-day comment.

Antoine Deloria, Postmaster at Gardena, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills. He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble. My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills." Ed. D. Heckerman.

SPEED LIMIT FIXED

Trains on P. R. E. System not to Exceed 70 Miles per Hour.

The Pennsylvania Railroad Company announced last Friday that orders had been issued restricting the maximum speed of all passenger trains under any circumstances at any point on the system, east and west of Pittsburgh, so as not to exceed 70 miles per hour. In addition, careful consideration has been given to the existing speed restrictions on curves.

Thorough investigation of the conditions on each division of the Pennsylvania system developed the fact that the present schedules, with but few exceptions, will not be affected by the speed restrictions when trains are being operated on time. The new instructions will only become operative when time has been lost at terminals or on the road, and will then prevent a speed of above 70 miles per hour in attempting to make up time.

To provide a means of notifying engineers of the proximity of a section of track on which a speed restriction has been placed, a special signal has been installed where the curvature of the track is such that a speed of 45 miles per hour or less is required. The new instructions, as well as complete observance of these signals, will be strictly enforced by the company.

As about 90 per cent. of all Pennsylvania Railroad trains are operated on time, it is felt by the management that the public will not be inconvenienced to any appreciable degree by the restriction of the speed of trains to 70 miles per hour.

Children Cry FOR FLETCHER'S CASTORIA
EYES AND HEALTH

Important Information by Secretary
Pennsylvania Society for the
Prevention of Tuberculosis.

Poor eyesight is a foe to health. Many children are anemic and narrow chested simply because their eyes are weak. Their eyes are not given proper care. Near-sighted children, for instance, bend over their books and in time become stoop shouldered.

If a child is to be kept well its eyes must be carefully watched from infancy. Never expose a baby's eyes to direct sunlight, either indoors or out of doors. When lying down, a child should have its face protected by a sun shade or awning of some kind.

Children should be kept out of doors as much as possible where their eyes will not have to look at small objects. When they play with blocks or picture books, both photographs and letters should be large. Don't send your child to a kindergarten where close work is done. Insist that the teacher uses large charts and pictures. Children should not lie on the floor and read. They should not play with children who have sore eyes. They should not use common towels, or common drinking cups.

If your child complains of headache or seems to strain his eyes, send him to the doctor immediately and obtain spectacles if necessary. It is better that a child should wear glasses than that he should strain over books until his shoulders become round and his chest grows narrow and flat—a splendid field for tuberculosis. Good eyes are important to health. Do not neglect them.

\$80,000,000.00 Lost Annually By Wage Earners

Dr. Sadler estimates that about \$80,000,000.00 in wages is lost annually to the American people as a direct result of colds. Lost time means lost wages and doctoring is expensive. Use Foley's Honey and Tar Compound promptly. It will stop the cough, and heal and soothe the sore and inflamed air passages. Ed. D. Heckerman.

Roosevelt, The Magician

Mr. Bryan, in The Commoner, writes: "In North Dakota, Roosevelt, the magician, waved his wand and divided the voters into two classes—those who are WITH the bull moose party and AGAINST Wall Street, and those who are AGAINST the bull moose party and WITH Wall Street. How easy it is, just a few words and all the 'absolutely pure' assemble themselves under the Perkins-Roosevelt standard, and the bad divide among the two old parties. And yet this is the same Roosevelt who, LESS THAN A YEAR AGO, could not see enough difference between Taft and La Follette to justify him in taking sides against Mr. Taft, but as soon as he becomes a candidate himself the man who does not embrace the trusts and shout for a third term becomes an enemy of his country. Can Roosevelt fool the public with his slight-of-hand performances?"

Dr. Wiley, the pure-food champion, was right when he said, "Roosevelt is a political humbug."

Hundreds of Millions of Dollars are Being Spent on New Railroad Terminals

Closely associated with the problem of living in and near the great cities, and intimately with the comfort and convenience of the hundreds of thousands of travelers all over the country, is the placing and construction of the modern terminal. The old smoky, dark, and badly placed railway stations of the past are giving way to wonderful new structures everywhere. The great railroads are vying with each other in the magnificence and comfort of their new terminals, and the sums expended on them seem almost fabulous. In continuation of the plan announced by Scribner's Magazine to have a series of special numbers bearing on the solution of the problems of Modern Living, the October number will have two profusely illustrated articles dealing with the various aspects of the modern terminal.

Could Not Straighten Up

A Peculiar Condition Removed

Some time ago I was troubled with pains in the back and kidneys, at times could not straighten up after bending over. Came to the conclusion that it was my kidneys. Read Dr. Kilmer's advertisement and made up my mind I would try Swamp-Root. During the time taking the contents of two bottles I passed two gall stones of quite good size. Today I am free from pains in the back and kidneys for Dr. Kilmer's Swamp-Root removed all the difficulty, and I can now go about my work and have no trouble with my back or kidneys. I will gladly recommend Dr. Kilmer's Swamp-Root to any one suffering from kidney or liver trouble. You are at liberty to publish this if you so desire.

The October Woman's Home Companion

The October Woman's Home Companion contains the first installment of a new serial story by Justus Miles Forman, which has to do with the subject, "Votes For Women," and is sure to create considerable discussion. The story is entitled "Through The Open Door," and starts out briskly with the principal character, a young woman of nineteen, discovering herself in a state of revolt against her teacher, who is stand-pat and conservative to the last degree.

Dr. Harvey W. Wiley, formerly chief of the Bureau of Chemistry in Washington, contributes to the same number of the Companion a remarkably interesting and useful article entitled "Intelligent Eating," full of specific suggestions to everybody. Another notable contribution is entitled "What I Got Out of College," the author being a Wellesley College graduate. "What Children Should Eat," by Dr. Roger H. Dennett, a New York specialist on children's diseases, is also a valuable article.

The regular Cooking, Home Decoration, Household and Fashion Departments are filled with good reading and with ideas that will help women to save time and money in their housekeeping and dress arrangements.

Your Lungs and Throat.

The preparation mentioned by the Rev. Chas. Sager has been for over sixty years of incalculable worth to sufferers from consumption, asthma, bronchitis, catarrh, grippe, coughs, colds and all lung and throat diseases, and is a household remedy in many, many homes to which it has brought health and happiness.

Mr. C. A. ABBOTT.

Dear Sir: I have known for over 40 years of the effects of Wilson's Remedy (Wilson's Preparation of Hypophosphites and Bloodroot) in cases of pulmonary troubles. At this point I will say to you what you have not before known of, that 40 years since, while I was a resident of N. Y. City, I was severely ill with lung trouble. Physicians said I was consumptive and my family physician told my wife that he thought I could not recover. My attention was directed to the Wilson Remedy, which I used with splendid effect. I have been on my feet and at work ever since my cure. Yours truly,
REV. CHAS. SAGER,
Pastor M. E. Church, Hunter, (Greene Co.,) N. Y.

The above letter shows what a great boon the Wilson Remedy was to Mr. Sager, but it is but one of thousands received testifying to the curative powers of this wonderful remedy. Write at once to Mr. Abbott at the above address and he will furnish you convincing proof of the great worth to humanity of this preparation.

VOLUME 107, NUMBER 1

With this issue The Gazette enters upon the one hundred seventh year of its existence, its name and its political complexion the same as on September 21, 1805, when the first number was issued by Charles McDowell. Notwithstanding the fact that the Legislature of Pennsylvania, a few years ago, enacted a law to "put it out of business in two years" it still lives and flourishes and has the largest bona fide circulation in the county, as well as by all odds the best equipped plant.

VERY SIMILAR

An orator on the trail of Colonel Roosevelt points out that in 1910 "Roosevelt lost even his own precinct, so well had his neighbors come to know him. He lost his own ward, his own county, his own Assembly district, his own Congress district, and his own state. All these went over to the Democrats."

This reminds us of the Congressional fight in which Hon. John M. Reynolds lost his home ward—he was then a resident of Bedford—his home town and his home county—the latter by more than 700—while Roosevelt carried the county by more than 2,300.

WILSON AT HOME

The full returns of the election in New Jersey, the home state of the Democratic Presidential candidate, were not obtainable at the time of going to press, but the returns from 42 completed districts from all parts of the state gave Hughes 1,071 and James Smith, Jr., Governor Wilson's out-spoken opponent, 587, or about two to one.

The friends of Smith claim that other voting districts will show greater strength for him, but this will count for little so far as Governor Wilson is concerned as the Democratic candidate for President, for the New Jersey fight was a local affair, and any one familiar with the differences between the Governor and James Smith knows that the matter is purely local. But all available evidence points to the selection of the candidate for the Senate who has the endorsement of Governor Wilson.

Suggests Shorter Editorials

Bedford, Pa., September 19.

To the Editor of The North American. I am a regular reader of The North American. It is the only Roosevelt or Progressive daily that comes to this town and community. An overwhelming majority of the old Republicans here are for Roosevelt and Johnson, but the Bedford Inquirer, which has been the Republican organ for fifty years, is under control of the Penrose machine and for that, but has but little influence.

The Progressives are handicapped by the fact that nearly all the old Republican county papers are controlled by tools of the Penrose machine throughout the state, and the Progressives have few organs through which to reach the voters and keep before them the vital issues of the campaign. The North American has a larger circulation in this community than any other daily paper and is doing a good work.

As a Republican editor for nearly forty years, but now a Progressive and not an editor, I beg leave to make a suggestion which, I think, would make your paper more acceptable, and, politically, more influential in this region.

The people of the rural districts are apt to skip long editorials, however good, and prefer short, snappy articles that go straight to the point. A column of such articles alongside your regular editorial I know would be highly appreciated by your patrons in this region. John Lutz.

HARVEST HOME SERVICES

Held in Trinity Lutheran Church, Bedford, Last Sunday.

On Sunday, September 22, Trinity Lutheran Church, Bedford, held Harvest Home services. In the morning at 11 o'clock the pastor, Rev. H. E. Wieand, preached an appropriate sermon, and gave a financial report of the church for the past year, which showed that the congregation and the different organizations of the church had raised \$3,500 for all purposes.

The auditorium of the church was beautifully decorated with fruits, vegetables and flowers which were very tastefully arranged. The decorating committee was highly complimented on the manner in which they had performed their work.

In the evening the choir rendered a musical, which was enjoyed by a large audience. The program was as follows:

Organ Prelude; Anthem, "Sing to the Lord of the Harvest;" Solo, Harry C. James, Male Quartette, H. B. Cessna, Milton Sammel, Anthony Sammel, Fred Sammel; Solo and Quartette, Miss Ellen Morgart, Miss Maude Cessna, D. C. Cessna, H. C. James; Solo, Miss Charlotte Jones; Duet, "To Thee, O Lord, My Heart Unfoldeth," Miss Maude Colvin, Miss Mary Bittinger, Remarks by Pastor, Rev. H. E. Wieand; Offering; Solo, "Just for Today," Fred Sammel; Solo and Chorus, "Sun of My Soul;" Fred Sammel and Choir; Trio, H. B. Paint?

There are two good reasons for painting often-enough or even too often. One, to look prosperous; two, to be so.

Nothing does one more credit or gives one more credit than paint, supplemented of course by what goes with it, and paint costs nothing.

True, the first cost is \$5 or \$6 a gallon put-on; but it saves more than that in the property, saves it from slow going down—not always slow it drops with a jump when water gets in on wood and iron.

Dry wood and iron cost nothing, kept dry by paint.

Better paint when it needs it. Paint never goes down in the sense of being more profitable next year.

EXCURSION TO GETTYSBURG

Delightful Trip Enjoyed by Bedford County People.

Last Sunday morning the excursion train, as advertised, left Bedford for Gettysburg at 6.03, three minutes late, in charge of conductors Critchfield and Klahre with engineer Charles Leonard at the throttle. The train consisted of 12 coaches which were not all filled, due to the inclemency of the weather. It arrived at Hollidaysburg with 422 passengers.

The run from Bedford to Hollidaysburg was an exceptionally good one. Engineer Leonard certainly handled his train well and conductors Critchfield and Klahre did their duty, which was confined to lifting tickets. Train Master Penrose took charge of the stopping and starting of the train which assisted the movement very much.

At Hollidaysburg the train was turned over to the Middle Division and left there at 7.35. The ride down the Petersburg Branch and over the Main Line of the Middle Division to Harrisburg, down the Blue Juniata and Susquehanna Rivers was simply grand. Passengers remarking on their arrival at Harrisburg that they had already had the worth of \$2.75, the fare from Bedford to Gettysburg and return.

We might say here that Max Housel, clerk in the Superintendent's office at Bedford, was a passenger on the train and being well acquainted along the line was busy explaining the various points of interest and was thought to be a tourist agent on the train for that purpose.

The passengers had a nice view of the capitol as they passed through Harrisburg.

The train made no stops between Petersburg and Harrisburg, stopping at that point to change engines and crews, then a through run to Gettysburg, arriving there four minutes ahead of schedule time. Vehicles of all kinds were at the depot to convey the passengers to any part of the great battle field, leaving the station about ten minutes after arrival and returning at 5.10 p. m. for the small sum of one dollar each. There was never a crowd of people more delighted over an excursion as this; everybody happy, everything satisfactory and many are now clamoring for another train. Hundreds of people did not go on account of the weather and are anxious to have this grand privilege repeated. The Pennsylvania Railroad deserves credit for affording the public this opportunity. An Excursionist.

The pastors of all the other churches of the village and community are specially invited to attend and take part in the services. Also members of other churches and the public in general are cordially invited to attend and take part.

Beware of the Frost-Proof Tree Man

State Zoologist H. A. Surface is responsible for the statement that a man from Lock Haven, Pa., is going through the state selling trees, which he claims are frost-proof, but which statement must not be believed. Doctor Surface says that a few years ago this same man went through Tioga County, selling trees that he claimed were grafted on oak roots to make them borer-proof. The farmers at that time had a great deal of trouble with him, but finally managed to cancel the orders before the trees were delivered.

Persons who desire to buy trees should procure them from reliable nurseries, and avoid dealing with tree agents whom they do not know, and who can not furnish satisfactory credentials. They should not sign their name to any order or paper until they are entirely satisfied that it can not be changed into some kind of a note, bill, or order that was not intended.

COUNTY CONVENTION

Patriotic Order Sons of America Hold Interesting Meeting.

The annual county convention of the Patriotic Order Sons of America, composed of delegates from the various camps of Bedford County, was held at Saxton Saturday afternoon.

The meeting was called to order by District President M. W. Corle, and the roll call showed nearly all officers present, and delegates from all the camps, except one, were in attendance.

M. W. Corle expressed a desire to retire as District President, and Sewell W. Rouzer of Bedford was unanimously endorsed to succeed him. The other officers elected were: Vice President, J. A. Benner, Saxton; Master of Forms, Howard Carpenter, Mann's Choice; Conductor, H. G. Faulkender, Loysburg; Secretary, M. W. Corle, Bedford; Treasurer, Samuel B. Amos, Bedford; Inspector, Harry Simons, Hopewell; Guard, W. H. Waltz, Saxton.

W. Thompson of Saxton, Chester Ford of Loysburg and David Darr of Schellsburg were appointed a committee on resolutions and submitted the following:

Whereas, We the representatives of the Camps of the Patriotic Order Sons of America of Bedford County in convention assembled, this 21st day of September, 1912, reaffirm our belief in the cardinal principles of the Order, and call upon every member of every camp in the county to renew his pledge in the same, to the end that our Order may flourish more intensely than ever and that the cause of patriotic loyalty to our country may increase. And,

Whereas, Viewing with a sense of satisfaction the progress the Order has made in the county and in the state in the past year, we yet feel and will work to that end that more increase may come; therefore,

Resolved, That we call upon every member of the Order in the county to put forth his best efforts for the good of his individual Camp and for the Order in general.

Resolved, That we pledge our support in all phases to our District President.

Resolved, That we condemn the procedure of the President of the nation in annulling the order of his Indian Commission in the religious garb matter—we maintaining that the use of such garb is in non-conformity to the principle of separation of church and state.

Resolved, That we pledge our united support to the public school system of our state.

Resolved, That the rule of this convention treating upon the time of meeting be changed to read: The annual meeting of the county convention shall be held on the first Saturday of August of each year.

Resolved, That we urge every member to use his vote for such candidates for state and national offices as will use their efforts in sympathy with the principles of the Patriotic Order Sons of America.

Resolved, That we extend to Washington Camp, No. 185, P. O. S. of A., our thanks for the use of their camp room for this session.

Important matters pertaining to the welfare of the Order were taken up and discussed. Arrangements will be made during the coming year to have a large delegation from the county attend the state convention which will meet in Altoona next August.

The next county convention will be held in Hopewell, when it is expected a big P. O. S. of A. reunion will be held in connection with the convention.

The District President's report showed eight camps in the county, with a total membership of 438, four of the lodges owning their own halls, and the balance of the Camps in a flourishing condition. M.

REJECT HARTMAN'S OVERTURES

19th District Washington Pre-emptors Name Brua for Congress.

Lynn A. Brua, a retired merchant of Hollidaysburg and for many years a leading member of the Republican party, has been selected by the leaders of the Washington party as Congressional candidate in the Blair-Cambria-Bedford district. At a meeting of the pre-emptors of the Washington party, held in Altoona Thursday evening, September 19, Brua was unanimously selected as the man for the Washington ticket.

A lifelong resident of Blair County and known to almost every voter in the district, Brua is regarded as one of the ablest men in Blair County, and with him at the head of the ticket the outlook for the new party is bright.

The selection of Brua completely foiled the plans as laid by the bosses of the county, James Fouse, pure food commissioner, and George Fox, postmaster.

For several weeks emissaries of the gang scoured Blair County with a large petition, which set forth that Congressman Jesse Hartman was a fine man and that his record spoke for itself. The petition asked that Hartman be named as the Bull Moose candidate, and all kinds of promises were made.

Although the petition was signed by all of Hartman's friends, it was completely ignored by the pre-emptors of the new party. With the sentiment expressed by the voters at the last election staring them in the face, the gangsters in this district are in bad straits. For several years past the power of the gang has been on the decline, and the mass of the voters are awaiting an opportunity to give the ring the final swat in November.

The Progressives have named Dr. E. R. McCauley, pastor of Grace Lutheran Church, Altoona, as candidate for the Legislature in the Altoona district. W. B. Ward, the Republican nominee who has held two terms in the Legislature, is facing almost certain defeat; it is claimed. Altoona Correspondent in Sunday's North American.

His Conquest.

He was a simon pure, edition de luxe lady killer. The girl in the seat opposite him was easy to look at. Further, she looked demure and shy and impressionable. It wasn't long before he had things going right—he thought. He had raised the window for her and readjusted the blind; he had fished her bag from under the seat, where the porter had shoved it; he had placed her pillow in a better position for her; he had handed her a magazine; he had looked after her comfort in every way he possibly could, and she had been very sweet about it besides. He thought he was coming along splendidly. She started to get off the train before he expected her to leave, but he carried her luggage to the platform for her. Then she turned and handed him a nickel with a sweet smile and the remark, "I think it is so nice of the railway company to furnish an assistant porter."—Argonaut.

How the Katydid Sings.

Everybody is familiar with the rasping notes known as the katydid's "song." It is the male only that is capable of emitting the well known sounds, and he does it in a most peculiar manner. His "vocal organs" are at the base of his wings and consist of two flat excrescences of thin, dry membrane. It is the rubbing of these two membranous plates together which produces the "song." If your shoulder blades were so loosely put together that one could be slipped under the other and the underside of one and the upper side of the other were so rough that the operation of slipping them past each other would cause a rasping sound you could imitate the katydid's musical efforts very nicely.

MEAN SWEEP FOR WILSON

Democratic Gains in Vermont and Maine Impressive.

OTHER PARTIES IN FLIGHT.

Third Termers to Poll Their Entire Strength From the Rapidly Thinning Republican Ranks—Indications Are That Taft Will Carry but Two States, Roosevelt None.

That the results of the state elections in Vermont and Maine mean a tremendous Democratic victory in November is freely admitted by all except the bitterest partisans. Political experts have done much analyzing, and some claim to have reached novel conclusions. But these facts stand out:

On Monday, Sept. 9, 1912, the Republican and third term parties combined elected William T. Haines governor of Maine over Frederick W. Plaisted, the present Democratic incumbent, by 8,023 plurality; in 1908, a presidential year, a Republican was elected governor by 7,653 plurality; in 1904 the plurality was 25,800, and in 1900 it was 34,132. In other words, in twelve years the Democrats have cut down the Republican plurality in state elections by 31,109.

In this period the Democratic vote has increased from 39,000 to 68,000, whereas the Republican vote has decreased from 74,000 to 71,000. The Democratic vote of this year exceeds that of September, 1908, by 1,000, but the Republican vote is about 2,000 less than that party cast four years ago.

The split in the Republican ranks, following the election of William T. Haines, is pronounced. If the division in Maine in November is as it was in the recent Vermont election six-tenths of the Republican vote will go for Taft, three-tenths for Roosevelt and one-tenth for the Democrats. It is significant that the latter party has to date suffered no losses, as compared with the vote in previous years, from the third term movement. On the contrary, it has gained. The result in Maine may be expected to be something like this: Wilson, 74,000; Taft, 42,600; Roosevelt, 21,300.

The returns from the recent Vermont election show in round figures that the joint Republican and third party vote was 8 per cent short of the Republican vote four years ago, while the Democratic vote in that state shows a gain of 25 per cent over that of 1908. It is of special interest to speculate what will happen next November throughout the nation if the Republican and Democratic vote for the national tickets happens to be affected as the gubernatorial vote this month in Vermont has been affected. The New York Post has done some interesting figuring along this line, and as a net result it is shown that under the contingencies mentioned President Taft would carry only two states in November, Rhode Island and Vermont, all the others going for Governor Wilson. The conclusions reached by the Post follow:

To compute this result we should have to deduct 8 per cent from the vote cast for Taft four years ago and apportion the remaining vote in the ratio of 62 to 38 between Taft and Roosevelt, and we should have to add 35 per cent to Bryan's vote in 1908 and give the "demolition total" to Woodrow Wilson—in other words, give Taft 57 per cent and Roosevelt 35 per cent of Taft's vote four years ago and give Wilson 125 per cent of Bryan's vote four years ago.

The result in round numbers would be as follows, so far as regards Taft and Wilson:

There is plenty of peace about the Taft candidacy, but nobody claims "it passes understanding."

A WOMAN'S GOOD LOOKS

Depend on her general health and freedom from pain. Many a woman looks old before her time because of those irregularities which are essentially feminine. Starting from early womanhood, she suffers from frequently recurring derangements that upset her womanly health. If she be beautiful she grows into that mellow age without wrinkles and crowfeet about the eyes or the blue circles underneath. It is invariably the rule that such women suffer little, or not at all, from womanly derangements which sap the health and leave in the face the tell-tale story of pain and suffering. Dr. R. V. Pierce, the famous specialist in the diseases of women, found a prescription in his early practice that soothed the organism peculiar to womanhood—oiled the machinery, as it were, of the human system—and helped the womanhood to pass those painful periods that scar-lined and aged her face. This remedy became the well-known Dr. Pierce's Favorite Prescription, that has benefited thousands of women and saved them from misery and suffering at different periods in life.

Mrs. Pierce.

MRS. HARKLEY E. PIERCE, of 244 Bright Street, Sarnia, Ont., writes: "I am now a well woman after suffering for three years and doctoring with several different doctors, each one saying it was something different, and the last one, after putting me through a thorough examination, said I was suffering from a growth, which, in time, would result in cancer, and said I would not live more than two years if not operated upon right away. I became hopelessly discouraged but would not consent to the operation as I was too weak and too much afraid, but at last, through the advice of a friend, I tried Dr. Pierce's medicine, and after using two bottles of the 'Favorite Prescription' I immediately felt a change. I also used two boxes of 'Healing Suppositories' and eight boxes of 'Lyon Tablets,' and can safely praise the name of Dr. Pierce's medicine to all who suffer from any female disease, for these medicines are all they are claimed to be, and I hope will help others as they have helped me."

SONG OF THE WHALE.

The Humpback Is a Little More Musical Than the Bowhead.

Whales are rarely thought of as vocalists, yet according to Miss A. D. Cameron in "The New North" they really have a distinctive song of their own.

A certain Captain Kelly was the first to notice that whales sing. One Sunday, while officers from three whaling ships were "gamming" over their afternoon walrus meat, Kelly started up with "I hear a bowhead!" There was much chaffing about "Kelly's band," but Kelly weighed anchor and went to find the band wagon. Every sail followed him, with the result that three whales were bagged.

Among bowheads this singsong is a call that the leader of the school, as he is called, makes in order to notify those that follow that the straits are clear of ice.

Walrus and seals and all true mammals that have lungs and live in the water have a bark that sounds strange enough as it comes up from hidden depths. Every lookout from the mast-head notices that when one whale is struck the whole school is "galled" or stampeded at the very impact of the harpoon; they have heard the death song.

The sound that the bowhead makes is like the long drawn out "hoo-hoo-oo-oo" of the hoot owl. A whaler says that the cry begins on F and may rise to A, B or even C before slipping back to F again. He assures us that with the humpback the tone is much finer and sounds across the water like the note from the E string of a violin.

One way to relieve habitual constipation is to take regularly a mild laxative. Doan's Regulents are recommended for this purpose. 25c a box at all drug stores.

SUNDAY SCHOOL.

Lesson XIII.—Third Quarter, For Sept. 29, 1912.

THE INTERNATIONAL SERIES.

Text of the Lesson, Comprehensive Quarterly Review—Golden Text, John vi, 63—Commentary Prepared by Rev. D. M. Stearns.

LESSON I.—Malignant unbelief, Mark iii, 20-35. Golden Text, John iii, 19. "This is the condemnation, that light is come into the world, and men loved darkness rather than light because their deeds were evil." It seems to me that the talk against Christ in our day on the part of many religious people is as bad as was that of the scribes in this lesson. May the word and the will of God be so dear to us that we shall be to Him all that He desires.

LESSON II.—The seed in the four kinds of soil, Mark iv, 1-20. Golden Text, Jas. i, 21, "Receive with meekness the engrafted word, which is able to save your souls." To know God is life. He reveals Himself by His word, and Jesus Christ is the Living Word, between whom and the written word there is the most perfect agreement. Receiving Him we become children of God, the children of the kingdom, for which we wait.

LESSON III.—The growth of the kingdom, Mark iv, 26-32; Matt. xiii, 33. Golden Text, Matt. vi, 10, "Thy will be done in earth, as it is in heaven." The title of this lesson is unfortunate, as the kingdom has not yet begun and therefore cannot be growing. In all His parables about the kingdom we must remember His saying, "The mystery of the kingdom of God." (Mark iv, 11.) The church, which is His body, is the mystery which is now growing.

LESSON IV.—The wheat and the tares, Matt. xiii, 24-30, 36-43. Golden Text, Matt. xiii, 30. "Gather ye together first the tares and bind them in bundles to burn them, but gather the wheat into my barn." Since the harvest is the end of this age and the devil keeps at work till then, it should be clear to all who believe that the kingdom cannot come in this age. First the church is taken, then the age runs on till He shall come to close it.

LESSON V.—The worth of the kingdom, Matt. xiii, 44-53. Golden Text, Matt. vi, 33, "Seek ye first the kingdom of God and His righteousness, and all these things shall be added unto you." The parables of the treasure and the pearl set forth the preciousness of Israel and the church to Him who gave up all for their sakes, for they will be the heavenly and earthly centers of His kingdom.

LESSON VI.—A troubled sea and a troubled soul, Mark iv, 35 to v. 20. Golden Text, Ps. xlii, 1, 2 (R. V.), "God is our refuge and strength, a very present help in trouble." See a weary man untroubled, peacefully sleeping in the midst of great trouble. See Him mightier than the storm or than a legion of demons, for He is truly God as man, and all things shall yet be subject to Him.

LESSON VII.—The Ruler's daughter, Mark v, 21-43. Golden Text, Mark v, 41, "And He took the damsel by the hand and said unto her, Talitha cumi, which is, being interpreted, Damsel, I say unto thee arise." Twelve years of life developing, suddenly ended, but restored; twelve years of life wasting away suddenly made whole, for in Him is life. He is the life and the resurrection.

LESSON VIII.—The visit to Nazareth Luke iv, 16-30. Golden Text, John i, 11 (R. V.), "He came unto His own and they that were His own received Him not." Both this and the later visit to Nazareth (Mark vi, 1-6) resulted in their refusing Him, because they thought they knew Him too well to receive Him as the Messiah. Some one has said that they might have known Him better if they had not known Him so well.

LESSON IX.—The death of John the Baptist, Mark vi, 14-29. Golden Text, Rev. ii, 10 (R. V.), "Be thou faithful unto death, and I will give thee the crown of life." To my mind the story of John is, from the human side, in many respects one of the saddest in the Bible. A great man in the sight of the Lord, foretold centuries before he was born, filled with the Spirit from his birth, honored to hear the voice of God and baptize Jesus, yet killed to please Herodias.

LESSON X.—The mission of the twelve, Matt. ix, 35; x, 15. Golden Text, Matt. x, 40, "He that receiveth you receiveth me, and he that receiveth me receiveth Him that sent me." An other perplexing lesson to those who see only the earth side. Sent forth with blessing only for Israel, to be bestowed freely, promised hatred and persecution and probably death. Yet we know that "As for God, His way is perfect." (Ps. xviii, 30.)

LESSON XI.—Judgment and mercy, Matt. xi, 20-30. Golden Text, Matt. xi, 28, "Come unto Me all ye that labor and are heavy laden, and I will give you rest." All spiritual things are hidden from unbelief and from the wisdom of this world. Only those who are like little children, the meek and lowly, can understand.

LESSON XII.—The feeding of the 5,000, Mark vi, 30-44. Golden Text, John vi, 35, "Jesus said unto them, I am the bread of life." Instead of puzzling over that which is too deep or too high for us, here is something within reach of all. Do as the lad did, and give our all to Jesus, that He may bless and multiply it and use us to give to the hungry the bread of life. "All power is His."

His Conquest.

He was a simon pure, edition de luxe lady killer. The girl in the seat opposite him was easy to look at. Further, she looked demure and shy and impressive. It wasn't long before he had things going right—he thought. He had raised the window for her and readjusted the blind; he had fished her bag from under the seat, where the porter had shoved it; he had placed her pillow in a better position for her; he had handed her a magazine; he had looked after her comfort in every way he possibly could, and she had been very sweet about it besides. He thought he was coming along splendidly. She started to get off the train before he expected her to leave, but he carried her luggage to the platform for her. Then she turned and handed him a nickel with a sweet smile and the remark, "I think it is so nice of the railway company to furnish an assistant porter."—Argonaut.

How the Katydid Sings.

Everybody is familiar with the rasping notes known as the katydid's "song." It is the male only that is capable of emitting the well known sounds, and he does it in a most peculiar manner. His "vocal organs" are at the base of his wings and consist of two flat excrescences of thin, dry membrane. It is the rubbing of these membranous plates together which produces the "song." If your shoulder blades were so loosely put together that one could be slipped under the other and the underside of one and the upper side of the other were so rough that the operation of slipping them past each other would cause a rasping sound you could imitate the katydid's musical efforts very nicely.

Setting Her Right.

"A newly married woman made a pie for dinner. 'I am afraid,' the bride said, 'that I left something out, and that it's not very good.'"

The husband tried it and said: "There is nothing you could leave out that would make a pie taste like that. It's something you've put in."—Argonaut.

Matthew Arnold.

"Matthew Arnold had a curious way of telling little stories against himself," writes Sir H. W. Lucy in the Cornhill.

"Talking about Mrs. Arnold, he said: 'Ah, you should know my wife! She has all my charm of manner and none of my conceit.'"

Badly Smitten.

"I wish there were ten days in the week," sighed Gladys.

"Why?" asked Grace.

"Jack could call oftener then."—London Answers.

MEAN SWEEP FOR WILSON

Democratic Gains in Vermont and Maine Impressive.

OTHER PARTIES IN FLIGHT.

Third Termers to Poll Their Entire Strength From the Rapidly Thinning Republican Ranks—Indications Are That Taft Will Carry but Two States, Roosevelt None.

That the results of the state elections in Vermont and Maine mean a tremendous Democratic victory in November is freely admitted by all except the bitterest partisans. Political experts have done much analyzing, and some claim to have reached novel conclusions. But these facts stand out:

On Monday, Sept. 9, 1912, the Republican and third term parties combined elected William T. Haines governor of Maine over Frederick W. Plaisted, the present Democratic incumbent, by 3,023 plurality; in 1908, a presidential year, a Republican was elected governor by 7,633 plurality; in 1904 the plurality was 25,800, and in 1900 it was 34,132. In other words, in twelve years the Democrats have cut down the Republican plurality in state elections by 31,109.

In this period the Democratic vote has increased from 39,000 to 68,000, whereas the Republican vote has decreased from 74,000 to 71,000. The Democratic vote of this year exceeds that of September, 1908, by 1,000, but the Republican vote is about 2,000 less than that party cast four years ago.

The split in the Republican ranks, following the election of William T. Haines, is pronounced. If the division in Maine in November is as it was in the recent Vermont election six-tenths of the Republican vote will go for Taft, three-tenths for Roosevelt and one-tenth for the Democrats. It is significant that the latter party has to date suffered no losses, as compared with the vote in previous years, from the third term movement. On the contrary, it has gained. The result in Maine may be expected to be something like this: Wilson, 74,000; Taft, 42,600; Roosevelt, 21,300.

The returns from the recent Vermont election show in round figures that the joint Republican and third party vote was 8 per cent short of the Republican vote four years ago, while the Democratic vote in that state shows a gain of 25 per cent over that of 1908. It is of special interest to speculate what will happen next November throughout the nation if the Republican and Democratic vote for the national tickets happens to be affected as the gubernatorial vote this month in Vermont has been affected. The New York Post has done some interesting figuring along this line, and as a net result it is shown that under the contingencies mentioned President Taft would carry only two states in November, Rhode Island and Vermont, all the others going for Governor Wilson. The conclusions reached by the Post follow:

To compute this result we should have to deduct 8 per cent from the vote cast for Taft four years ago and apportion the remaining vote in the ratio of 62 to 38 between Taft and Roosevelt, and we should have to add 35 per cent to Bryan's vote in 1908 and give the "deminitution total" to Woodrow Wilson—in other words, give Taft 57 per cent and Roosevelt 25 per cent of Taft's vote four years ago and give Wilson 125 per cent of Bryan's vote four years ago.

The result in round numbers would be as follows, so far as regards Taft and Wilson:

	Taft	Wilson

A western third termers regrets that Roosevelt will not have time before election day to say half he means. He'll have plenty of time following it.

There is plenty of peace about the Taft candidacy, but nobody claims "it passeth understanding."

A WOMAN'S GOOD LOOKS

Depend on her general health and freedom from pain. Many a woman looks old before her time because of those irregularities which are essentially feminine. Starting from early womanhood, she suffers from frequently recurring derangements that upset her womanly health. If she be beautiful she grows into the mellow age without wrinkles and crowfeet about the eyes or the blue circles under the eyes. It is invariably the rule that such women suffer little, or not at all, from womanly derangements which sap the health and leave in the face the tell-tale story of pain and suffering. Dr. R. V. Pierce, the famous specialist in the organic peculiar to womanhood, in his early practice that soothed the organism peculiar to womanhood—oiled the machinery, as it were, of the human system—and helped the womanhood to pass those painful periods that scar-lined and aged her face. This remedy became the well-known Dr. Pierce's Favorite Prescription, that has benefited thousands of women and saved them from misery and suffering at different periods in life.

Mrs. Harkley E. Pierce.

MRS. HARKLEY E. PIERCE, of 244 Bright Street, Sarnia, Ont., writes: "I am now a well woman after suffering for three years and doctoring with several different doctors, each one saying it was something different, and the last one, after putting me through a thorough examination, said I was suffering from a growth, which, in time, would result in cancer, and said I would not live more than two years if not operated upon right away. I became hopelessly discouraged but would not consent to the operation as I was too weak and too much afraid, but last, through the advice of a friend, I tried Dr. Pierce's medicines, and after using two bottles of the 'Favorite Prescription' I immediately felt a change. I also used two boxes of 'Healing Suppositories' and eight boxes of 'Lotion Tablets,' and can safely praise the name of Dr. Pierce's medicines to all who suffer from any female disease, for these medicines are all they are claimed to be, and I hope will help others as they have helped me."

Lesson XIII.—Third Quarter, For Sept. 29, 1912.

THE INTERNATIONAL SERIES.

Text of the Lesson, Comprehensive Quarterly Review—Golden Text, John vi, 63—Commentary Prepared by Rev. D. M. Stearns.

LESSON I.—Malignant unbelief, Mark iii, 20-35. Golden Text, John iii, 19, "This is the condemnation, that light is come into the world, and men loved darkness rather than light because their deeds were evil." It seems to me that the talk against Christ in our day on the part of many religious people is as bad as was that of the scribes in this lesson. May the word and the will of God be so dear to us that we shall be to Him all that He desires.

LESSON II.—The seed in the four kinds of soil, Mark iv, 1-20. Golden Text, Jas. i, 21, "Receive with meekness the engrained word, which is able to save your souls." To know God is life. He reveals Himself by His word, and Jesus Christ is the Living Word, between whom and the written word there is the most perfect agreement. Receiving Him we become children of God, the children of the kingdom, for which we wait.

LESSON III.—The growth of the kingdom, Mark iv, 26-32; Matt. xiii, 33. Golden Text, Matt. vi, 10, "Thy will be done in earth, as it is in heaven." The title of this lesson is unfortunate, as the kingdom has not yet begun and therefore cannot be growing. In all His parables about the kingdom we must remember His saying, "The mystery of the kingdom of God." (Mark iv, 11.) The church, which is His body, is the mystery which is now growing.

LESSON IV.—The wheat and the tares, Matt. xiii, 24-30, 36-43. Golden Text, Matt. xiii, 30, "Gather ye together first the tares and bind them in bundles to burn them, but gather the wheat into my barn." Since the harvest is the end of this age and the devil keeps at work till then, it should be clear to all who believe that the kingdom cannot come in this age. First the church is taken, then the age runs on till He shall come to close it.

LESSON V.—The worth of the kingdom, Matt. xiii, 44-53. Golden Text, Matt. vi, 33, "Seek ye first the kingdom of God and His righteousness, and all these things shall be added unto you." The parables of the treasure and the pearl set forth the preciousness of Israel and the church to Him who gave up all for their sakes, for they will be the heavenly and earthly centers of His kingdom.

LESSON VI.—A troubled sea and a troubled soul, Mark iv, 35 to v, 20. Golden Text, Ps. xlii, 1, 2 (R. V.), "God is our refuge and strength, a very present help in trouble." See a weary man untroubled, peacefully sleeping in the midst of great trouble. See Him mightier than the storm or than a legion of demons, for He is as truly God as man, and all things shall yet be subject to Him.

LESSON VII.—The ruler's daughter, Mark v, 21-43. Golden Text, Mark v, 41, "And He took the damsel by the hand and said unto her, Talitha cumi, which is, being interpreted, Damsel, I say unto thee arise." Twelve years of life developing, suddenly ended, but restored; twelve years of life wasting away suddenly made whole, for in Him is life. He is the life and the resurrection.

LESSON VIII.—The visit to Nazareth, Luke iv, 16-30. Golden Text, John i, 11 (R. V.), "He came unto His own and they that were His own received Him not." Both this and the later visit to Nazareth (Mark vi, 1-6) resulted in their refusing Him, because they thought they knew Him too well to receive Him as the Messiah. Some one has said that they might have known Him better if they had not known Him so well.

LESSON IX.—The death of John the Baptist, Mark vi, 14-29. Golden Text, Rev. ii, 10 (R. V.), "Be thou faithful unto death, and I will give thee the crown of life." To my mind the story of John is, from the human side, in many respects one of the saddest in the Bible. A great man in the sight of the Lord, foretold centuries before he was born, filled with the Spirit from his birth, honored to hear the voice of God and baptize Jesus, yet killed to please Herodias.

LESSON X.—The mission of the twelve, Matt. ix, 35; x, 15. Golden Text, Matt. x, 40, "He that receiveth you receiveth me, and he that receiveth me receiveth Him that sent me." Another perplexing lesson to those who see only the earth side. Sent forth with blessing only for Israel, to be bestowed freely, promised hatred and persecution and probably death. Yet we know that "As for God, His way is perfect." (Ps. xlviii, 30.)

LESSON XI.—Judgment and mercy, Matt. xi, 20-30. Golden Text, Matt. xi, 28, "Come unto Me all ye that labor and are heavy laden, and I will give you rest." All spiritual things are hidden from unbelief and from the wisdom of this world. Only those who are like little children, the meek and lowly, can understand.

LESSON XII.—The feeding of the 5,000, Mark vi, 30-44. Golden Text, John vi, 35, "Jesus said unto them, I am the bread of life." Instead of puzzling over that which is too deep or too high for us, here is something within reach of all. Do as the lad did, and give our all to Jesus, that He may bless and multiply it and use us to give to the hungry the bread of life. "All power is His."

Surprise Party

Monday evening of last week the friends of George A. Hoagland, a well-known farmer residing about a mile southwest of Cessna, tendered him a pleasant surprise, in honor of his 54th birthday. Preparations had been going on for some time and, although the members of the family had part in them, Mr. Hoagland himself was ignorant of the "conspiracy" to the very last moment. Between 7 and 8 o'clock vehicles of every description could be seen making their way slowly and quietly toward the home of Mrs. Rebecca Hammond nearby, and when the joy-makers, numbering between 50 and 60, had all assembled, they proceeded at once to take possession of the Hoagland home.

Upon the appearance of the honored host, the guests were allowed to give vent to their suppressed feelings and the scene that followed was one of merriment. The evening was most delightfully spent playing games, in conversation and listening to music. At a late hour the guests were invited to the dining-room where refreshments were served, consisting of cakes, ice cream and fruits. After another period of cordial handshaking and of wishing Mr. Hoagland long life and prosperity, the guests departed for their homes, feeling that in giving happiness they had also received an abundant share for themselves.

The following were present: Mr. and Mrs. Smith Hoagland, Mr. and Mrs. George A. Hoagland, Mr. and Mrs. Levanus Dibert, Mr. and Mrs. Henry Hershberger, Mr. and Mrs. Charles Koontz, Mr. and Mrs. George W. Koontz, Mrs. Elizabeth Koontz, Mrs. Rebecca Hammond, Mrs. Margaret Hammond, Rev. and Mrs. E. A. G. Herman and daughter Dorothy; Mr. and Mrs. George Wisegarver and family, Mr. and Mrs. Harry Schaeffer and daughter, Mr. and Mrs. George Ickes and family, Mr. and Mrs. J. H. Schaffer, Mr. and Mrs. John Anderson, Mr. and Mrs. Jacob Anderson, Mrs. Frank Naugle, Misses Brown, Devore, Taylor, Mamie Hoagland, Mollie Anderson, Maud and Myrtle Helsel, Nettie Anderson, Mary and Elizabeth Hammond, Ruth Naugle, Lola Hammond, Messrs. A full line of ladies' and children's coats and sweaters is on exhibition at Mrs. Carrie V. Ballard's, Mann's Choice.
